

## U.S. ETHANOL EXPORTS (MILLION GALLONS)

## U.S. DISTILLERS GRAINS EXPORTS (THOUSAND METRIC TONS)

## U.S. EXPORT VALUE (THOUSAND DOLLARS)

## MAKING PROGRESS

Canada is in the process of approving and implementing a national Clean Fuel Standard that is expected to drive the use of E15 nationally by 2023.

Ontario and Quebec are completing work on clean-fuel efforts that promise a complete transition to E10 blends by 2020, and to E15 blends by 2025.

### TIMELINE

Ontario and Quebec E10:	2020
Federal Clean Fuel Standard:	2023
Ontario and Quebec E15:	2025

## OVER THE LAST DECADE, RANKED

**1st Overall**  
in U.S. ethanol exports

**4th Overall**  
in U.S. distillers grains exports
